

Multiple Locations

Managing energy for multiple locations is a unique challenge unlike those of a single location business.

WE HAVE THE EXPERTISE

We specialize in meeting the needs of multiple location business in both electricity and natural gas. We currently serve numerous retail chains and other multiple location customers. Our services geared toward customers with multiple locations include:

- Management Reporting
 - Consolidated and single location
 - Segmented by market
- Load Forecasting
 - Consolidated portfolio forecast
 - Individual location specific
- Market Modeling
 - Portfolio load data viewed against forward price curves
 - “What if” analysis to determine optimum purchasing strategies
- Billing
 - Choice of single or dual billing
 - Separate reporting for P&L purposes
 - Consolidated portfolio view for corporate purposes
 - Handles multiple billing cycle dates
 - Data exchange compliant with multiple formats

To learn more about our multi location products and services, please contact Dancor Energy.

“From our experience, we are confident that the additional service will represent a substantial savings in our multiple electric bills across the Massachusetts area.”
